Package Diagrams

Deployment Diagram

Identify interfaces

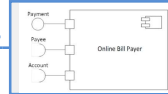

Define the replaceable parts

Component

Basic Component

Interfaces

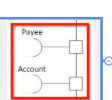

Realizes/Implements

1. Solid line
2. Circle
3. Name over circle
4. Square connect between

Required Interfaces

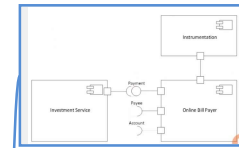

1. Solid Line
2. Half Circle& Half Block
3. Name over
4. Square connected

Component

Instrumentation

Online Bill Payer

Investment Service

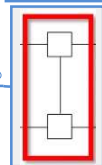

loosely connect

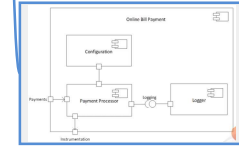

Can plug together or unplug easily
pluggable and replaceable

Tight Connection

Tightly connected together
Can not easy replace
if replace one of they two,
the other will also need change

Connect Component

Component

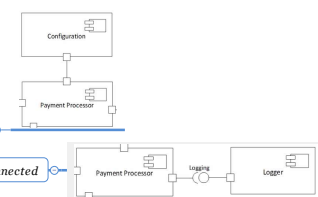

Configuration

Payment Processor

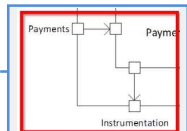

Logger

Highly Tighted

loosely connected

Interaction with others

ingoin
outgoing
